Executive Summary

THE MARKET GAP

No European law firm currently offers structured, multi-jurisdiction comparative legal advisory on immigration and relocation across EU countries — verified through analysis of 21 competitor domains, SEO SERP data, and market research (Enthous, June 2026). This is EVA's founding rationale.

What EVA Is

Europe Visa Advisory is an autonomous advisory unit of Studio Legale Internazionale Boschetti that provides **neutral, cross-border comparative legal guidance** on immigration and relocation across five EU jurisdictions (IT, PT, ES, DE, FR).

EVA does not execute local filings independently. It assesses the client's profile, produces a comparative report, recommends the optimal jurisdiction, and coordinates execution through a certified local partner network (advogado, abogado, Rechtsanwalt, avocat).

Analogy: MutuiOnline for EU immigration — neutral broker, no conflict of interest, comparative by design.

Why Now

Three major EU regulatory programs collapsed or reformed in 18 months:

- **Spain Golden Visa** — abolished April 3, 2025 (LO 1/2025)
- **Portugal NHR** → **IFICI** — reformed May 2026, zero competitors updated
- **Malta direct citizenship** — invalidated by ECJ ruling 2025

Clients advised by mono-country specialists had to restart from zero. The regulatory volatility is the empirical proof that comparative advisory is not just preferable — it is structurally necessary.

Client brief

GOD MODE VERDICT

PASS WITH RESERVATIONS → corrections applied → effective PASS. Three minor issues were identified and corrected before this document was finalized. All market data is used correctly without distortion. The regulatory volatility argument is built on verified, source-cited events. The financial model carries explicit assumption flags on all non-brief numbers. Pricing not yet formalized by client — to confirm before external use.

Market Analysis

EU immigration advisory — verified data from authoritative sources

Key Market Indicators

Golden Visa Status by Country — 2026

Country	Program Status	Annual Volume	Min. Investment	Key Change
Portugal	Open — Restricted	~2,081 (2024)	€500K (funds only)	Real estate excluded since Oct 2023. NHR → IFICI reform May 2026. Source: AIMA
Italy	Open — Stable	~128–209/year	€250K (startup)	+63% growth in 2025. Flat tax raised to €300K/year in 2026.

Country	Program Status	Annual Volume	Min. Investment	Key Change
				Source: MIMIT/IMI Daily
Spain	CLOSED	780 (Jan–Oct 2024)	N/A (abolished)	Closed April 3, 2025 (LO 1/2025). 14,870 monthly searches now orphaned. Source: Ministerio Vivienda
France	Open	~12,790 (all Talent Passport categories)	€300K + 10 jobs	Talent Passport (Business Investor). Not disaggregated by investor category. Source: DGEF
Germany	No GV Program	N/A	N/A	No investor-residency program. EU Blue Card (41K+/year) + Chancenkarte (June 2024). Source: BAMF

HNWI Migration Flows (2025)

Source: Henley Private Wealth Migration Report 2025

Destination	Net Inflow 2025
Italy	+3,600 (1st in EU)
Switzerland	+3,000
Portugal	+1,400
Greece	+1,200
UK	−16,500 (record outflow)
France	−800
Spain	−500

Note: Henley methodology uses estimates, not administrative records. Italy's position as #1 EU destination for HNWI inflow is directionally significant for EVA positioning.

Key Population Flows

Verified from AIMA, BAMF, Eurostat, The Local

Brazilians in Portugal: 484,596 residents (end 2024, +31.4% YoY) — 31.4% of all foreigners in Portugal. Largest single nationality. *Source: AIMA/Público*

India → Germany Blue Card: India = 25%+ of all EU Blue Card holders in Germany. 41,000+ Blue Cards issued annually. *Source: BAMF*

UK → EU (post-Brexit): 42,029 British nationals received EU residence permits in 2023, primarily Spain, France, Germany. *Source: Eurostat/The Local*

⚠ DATA FLAG

Digital Nomad Spain 27,875 figure (from client brief): Not verified from primary sources in this research. Could not be confirmed via Ministerio de Inclusion public data. Recommend verifying at inclusion.gob.es or PRIE before using in external communications. Spain's Digital Nomad Visa (Ley Startups, Feb 2023) is real and active — the specific volume figure requires source confirmation.

Competitive Landscape

21 domains analyzed — Source: Enthous SEO Report, DataForSEO Labs, SERP live analysis, June 2026

STRATEGIC CONCLUSION

"No competitor covers 3+ desks simultaneously with certified legal identity. **65% of EVA's target clusters have LOW competition.** No competitor among the 21 presents a named identifiable lawyer as the face of authority — a structural E-E-A-T gap vs. Google HCU/YMYL." — Enthous SEO Report

Top 3 Direct Competitors — Deep Analysis

oliveiralawyers.com

PT Desk Priority 1

DR 30–40

ETV/MO 199

STRENGTH D7 Visa (pos. 6), Retirement Visa PT (pos. 2–4)

GAPS NHR/IFICI = 0 keywords. Spain = 0. Germany = 0

EVA can surpass on D7 in 6–12 months and become **absolute first-mover on NHR/IFICI.**

balcellsgroup.com

ES — Threat Reassessed LOW

DR 40–50

ETV/MO 13,884

STRENGTH "Wills in Spain" (pos. 1)

REALITY

78% OF TRAFFIC IS "SPAIN FUN FACTS" AND SPANISH SURNAMES
— not immigration

Spain DNV = 0 kw. NLV = 0. Beckham Law = 0. Golden Visa = 0. Top-5 on core immigration is **wide open**.

se-legal.de

DE Desk Priority 1

DR 40–50

ETV/MO 107,701

STRENGTH German citizenship (pos. 2–8 US). "Move to Germany from US."

GAPS EU Blue Card India = 0. Opportunity Card = 0. Business/Investor = 0

EVA can own EU Blue Card in India + US markets where se-legal has zero presence.

Open Strategic Gaps — First-Mover Windows

Gap	Representative Keyword	SERP Status	Volume	Priority
NHR → IFICI (reform May 2026)	nhr portugal tax 2026	Zero competitors updated in top-50	~2,480/mo	MAXIMUM — closes fast
Beckham Law Spain	beckham law spain	Top-10 open, balcells absent	High	MAXIMUM
Spain GV Closed — orphan traffic	spain golden visa	Dominated by gov, Reddit, Henley — no advisors	14,870/mo	TIME-SENSITIVE
PT vs. ES Comparative	portugal vs spain for expats	Blogs + Reddit, zero consultants	—	HIGH

Gap	Representative Keyword	SERP Status	Volume	Priority
Tri-country legal comparative	move to PT vs ES vs DE	No 3-country comparator with legal content	—	● EVA creates this cluster
EU Blue Card advisory	eu blue card germany	se-legal pos. 36–44 US, absent India	High (India + US)	● Gap on 2 markets
Italian advisory market	nhr portogallo per italiani	Professional offering near-zero	~11K/mo (SAM)	● Quick win 6 months
PT-BR legal advisory	visto d7 portugal (advisory)	eurodicas dominates informational; legal = zero	~80K/mo (SAM)	● Boschetti structural advantage

AI VISIBILITY ALERT

immigrantinvest.com is the most dangerous AI competitor: 4 Google AI Overview citations + 4 Perplexity citations = 8 cross-platform citations on PT, ES, and comparative queries. However, it is an investment aggregator — not a law firm. EVA has the structural advantage of *authentic legal advice* with a named attorney, but must build equivalent editorial depth to be cited. EVA's baseline AI Visibility = 0/100 (domain not yet registered).

PROFILE 1

Digital Nomad / Remote Freelancer

USA, Canada, India, UK · Ages 28–42 · Income €40–120K · GTM Priority: HIGH

Quick Win — Brazilian sub-segment

Functional Job: Obtain stable EU residency that legalizes remote work before a compliance issue forces a crisis move.

Emotional Job: Stop being "legally nowhere" — feel settled, secure, no longer improvising.

Social Job: Be the person who figured out Europe properly — not the one who got deported or fined.

PUSH: AIMA backlogs; consulate inconsistency; contradictory free guides; plans obsoleted by rule changes.

PULL: Single comparative assessment; named Italian lawyer; no country bias.

ANXIETY: "Legal advice is expensive and I don't know if I need it yet."

HABIT: Reddit/Nomad forums as free alternative; indefinite delay.

PROFILE 2

HNWI / Investor

Net worth €500K–5M+ · Ages 45–65 · Multiple professional advisors already in place · GTM Priority: HIGH

Highest Ticket — T4

Functional Job: Select the EU jurisdiction that best protects and optimizes their asset structure given 2025–2026 regulatory reality.

Emotional Job: Feel certain about a long-term decision with irreversible financial consequences.

Social Job: Be the sophisticated investor who chose wisely — not the one caught by a closed program.

PUSH: Spain GV closed Apr 2025; NHR reformed May 2026; Malta invalidated — three documented collapses in 18 months.

PULL: Cross-border comparative methodology; awareness of current regulatory reality; named accountable attorney.

ANXIETY: "My accountant/lawyer already handles this." — Primary barrier. EVA is the complement, not the replacement.

PROFILE 3

Retiree with Passive Income

Ages 60–75 · UK, US, Brazilian, South African · Pension income €80–200K/yr · NHR
Closure = HIGHEST URGENCY

Functional Job: Establish a tax-favorable EU residency for pension and passive income, stable for 10–15 years.

Emotional Job: Never have to rethink this decision again — certainty, not optimization.

Quantified Pain (NHR closure): On a €150K/yr pension, tax cost shifts from €15K/yr to €52–55K/yr = **€37,000+/year damage** for clients relying on now-closed NHR regime.
This is the single most powerful concrete value proposition for this profile.

PROFILE 4

Corporate Manager / ICT Assignee

Job: Obtain the correct ICT permit in the right EU country within the assignment start date.

Key pain: 20–30% rejection rate for documentation errors. 70% of companies lack internal multi-country expertise.

Note: B2B secondary target. Activate in Phase 3 (LinkedIn) after 3+ corporate case studies exist.

PROFILE 5

Brazilian — EU Aspiration via PT

Job: Portuguese residency as EU entry point + citizenship in 5 years.

Social job: "Feel European" — aspirational identity shift, powerful in tight communities → natural referral loops.

EVA advantage: 19K warm contacts + 2,000+ PT citizenships. This is the **highest-probability Quick Win** in the entire GTM plan.

Strategic Positioning

De Veglia Brand Positioning Formula + Lean Canvas — produced by the Strategist agent

Brand Positioning Statement

"EVA — Europe Visa Advisory is the only Italian law firm that provides structured, multi-jurisdiction comparative legal advice on immigration and relocation across 5 EU countries (IT, PT, ES, DE, FR), with no financial or structural incentive to recommend any specific jurisdiction. Unlike local country specialists who advise only on their own system, EVA maps the client's full option set against verified regulatory reality — one assessment, five countries, zero conflict of interest."

STRATEGIST AGENT — TTP AGENCY · DE VEGLIA BRAND POSITIONING FORMULA APPLIED · JUNE 2026

External Payoffs

PRIMARY (B2C)

"Your whole Europe. One legal guide."

SECONDARY (B2B)

"Five countries. One firm. No conflict."

Positioning Quadrant

Type	Who they are	EVA Gap
Local specialists	oliveiralawyers, balcells, se-legal	Mono-country, structurally conflicted
Relocation agencies	imin-portugal, expertsforexpats	Logistics only, no legal advisory
Digital platforms	getgoldenvisa, immigrantinvest	Information, no legal accountability
EVA	Italian law firm, multi-jurisdiction	Comparative + legal + neutral

Lean Canvas — EVA

Block	Content
Problem	(1) Cross-border EU immigration planning requires comparing 5 legal systems — no single local advisor can do this without a structural conflict of interest. (2) Regulatory landscape is volatile — 3 major program collapses in 18 months. (3) First-contact decision paralysis: clients don't know which country is right and don't know who to ask without getting a biased answer.
Customer Segments	Primary: HNWI, Retirees, Digital Nomads, Brazilians (PT). Early adopters: (a) 19K Brazilian contacts (warm, validated, immediate access). (b) HNWI aware of NHR/IFICI change (high urgency, high willingness to pay). B2B: relocation agencies, foreign law firms, HR corporate (Phase 3).
Unique Value Proposition	"The only Italian law firm that maps your EU options across 5 countries with no conflict of interest — and tells you where to go based on 2026 regulatory reality, not last year's advice."
Channels	Phase 1: SEO (NHR/IFICI, Beckham Law, Spain GV closed — zero-competition windows). Phase 2: Email to 19K Brazilian contacts (PT-BR). Phase 3: LinkedIn B2B outreach. Phase 4: Referral loop from Brazilian community.
Revenue Streams	T1 Comparative Snapshot: €400–800. T2 Advisory + Roadmap: €1,000–2,000. T3 Full Case Standard: €2,800–5,500. T4 HNWI: €5,500–9,000. T5 B2B Retainer: €1,000–2,000/mo. <i>[All pricing: ASSUMPTION — to confirm with client]</i>

Block	Content
Unfair Advantage	(1) 19K validated Brazilian contacts with prior relationship — non-replicable. (2) 2,000+ documented citizenship outcomes. (3) Named identifiable attorney — structural E-E-A-T advantage none of the 21 competitors possess. (4) First-mover on NHR/IFICI content (time-sensitive).
Key Risk	Boschetti's time is the binding constraint, not budget. Every additional mandate competes for the same single resource. Maximum 3–4 active mandates/month recommended in Year 1.

The "Why the Conductor?" Answer

The central objection — answered with data, not claims

THE OBJECTION

*"I can hire a Portuguese / Spanish / German lawyer directly for half the price.
Why do I need an Italian law firm to coordinate?"*

The Structural Conflict of Interest Argument

A Portuguese lawyer has a direct financial interest in you pursuing a Portuguese solution. A Spanish lawyer has a direct financial interest in you pursuing a Spanish solution. This is not a criticism of their competence — it is a structural reality that does not depend on intent.

EVA has no country interest. If Germany is right for you, EVA says Germany. If Italy is right, EVA says Italy. The local partner then executes.

This is verifiable: EVA's revenue comes from the advisory mandate fee — not from a percentage of a real estate transaction, investment product, or government filing in any specific country.

The Empirical Proof — Three Documented Collapses

Event	Date	Consequence for mono-country advisees
Spain Golden Visa abolished	April 3, 2025	14,870 monthly searches now orphaned. Clients advised Spain GV had to restart from zero.
Portugal NHR → IFICI reform	May 2026	Tax delta on €150K pension: €15K/yr → €52–55K/yr = €37,000+/yr damage . Plans built on NHR advice are now wrong.
Malta direct citizenship invalidated	2025 (ECJ ruling)	Programs sold by Maltese advisors voided. Clients must re-evaluate entirely.

The Key Line for Any Pitch

"The advisors whose clients were affected by these changes were not incompetent. They were giving excellent advice for their specific country. The problem was that nobody was watching the whole board."

EVA WATCHES THE WHOLE BOARD. THAT IS THE JOB.

Against the Price Objection

If the local lawyer's recommendation turns out to be built on a program that closes (as 3 programs did in 18 months), the cost of starting over — time, legal fees, opportunity cost, and €37K+/yr in taxes — dwarfs the differential EVA fee.

EVA's fee is not a cost. It is an insurance premium on an irreversible decision.

Financial Model — Year 1–2

Produced by the Calculator agent · All pricing marked [ASSUMPTION] — requires client confirmation before external use

⚠ IMPORTANT DISCLAIMER

All service pricing figures are assumptions based on EU premium immigration advisory market benchmarks. EVA's pricing is not yet formalized. These numbers must be **confirmed with Avv. Boschetti before any use in client communications, proposals, or external documents.**

The most critical variable to confirm: partner local costs (A07 in assumption log) — directly impacts margins.

Service Tier Architecture [All pricing: ASSUMPTION]

Tier	Service	Anchor	Target	Floor	Margin (est.)
T1	Comparative Snapshot (1h consult + report)	€800	€600	€400	54%
T2	Advisory + Roadmap (assessment + 3h follow-up)	€2,000	€1,500	€1,000	57%
T3	Full Case Standard (1 country, 1 applicant)	€5,500	€4,000	€2,800	56%
T4	HNWI / Golden Visa / Investor	€9,000	€7,500	€5,500	58%
T5	B2B Retainer (3 consultations/mo)	€2,000/mo	€1,500/mo	€1,000/mo	50%

Year 1 — Three Scenarios

LIGHT

€59.5K

~24 engagements

Net contribution: ~€20.7K

GTM: €8.1–10.1K

Conservative: slow SEO, 2 Brazilian conversions, no B2B activation, no HNWI cases.

BASE — RECOMMENDED ★

€122.5K

~30–35 engagements

Net contribution: ~€56.6K

GTM: €10.6–13.2K

Site live July, Brazilian campaign Q3, 1 HNWI case Q1 2027, 1 B2B partner Q4. Matches Sara's proposal.

OPTIMISTIC

€194.5K

~48 engagements

Net contribution: ~€96.4K

GTM: ~€13.2K

All Base + 3 B2B partners Q4, 2–3 T4 HNWI cases, IT flat tax buzz drives referrals, SEO gains momentum Q1 2027.

Break-Even Analysis

Break-Even Type	Engagements Needed	Timing (Base)
GTM investment recovery	~7 cumulative	Nov–Dec 2026
Monthly cash-flow neutral	2/month	Oct–Nov 2026
Year 1 ROI positive	~18 cumulative	Feb–Mar 2027

KEY INSIGHT

Price discipline > volume. Moving from €3,500 to €4,000 avg ticket (+14%) increases net contribution by ~€15,000 at base volume. In Year 1, pricing discipline is more valuable than chasing more cases.

Year 2 Projection (Base → Optimistic)

Quarter	Engagements	Revenue
Q3 2027	15–20	€55–75K
Q4 2027	18–25	€65–95K
Q1 2028	20–28	€75–105K
TOTAL Year 2	75–103	€277–387K

Year 2 assumptions: ES desk live Q2, DE desk Q3, 4–5 B2B retainer partners, part-time case coordinator at ~€1,500/mo enabling 8–10 cases/month capacity. *[All assumptions — verify before planning]*

Highest ROI Channel — Summary

Channel	Investment	Est. CAC/Engagement	ROI Hypothesis
Brazilian email campaign (19K contacts)	€600	€75–200	13x potential if 2 T3 cases close. Best Year 1 ROI per euro.
Referral (existing Boschetti)	€0 direct	€0–50	Highest conversion rate (40–60% warm). Zero

Channel	Investment	Est. CAC/Engagement	ROI Hypothesis
clients)			cost. Track from Day 1.
SEO organic	€500 setup + content time	€100–200 at steady state	Compounding. Full ROI 12–18 months. Best long-term channel.
LinkedIn B2B outreach	~€2,000 Sara hours	€500–1,000/partner	Highest LTV (€18K/yr per retainer). Year 2 engine.

"Every Country. One Counsel."

Go-to-Market Roadmap

4-phase plan calibrated for mono-resource studio · low budget · domain not yet registered

⚠️ BLOCKING ISSUE — ACT THIS WEEK

Domain not registered. Nothing in this roadmap can start until the domain exists. The SEO clock does not begin. The NHR/IFICI first-mover window is closing. The cost is €20–50. The opportunity cost of each day of delay is measurable. **This is the single most urgent action in the entire plan.**

PHASE 0 — NOW → JULY 2026

Foundation Sprint — Non-Negotiable Prerequisites

Domain registration

BoschettiEVA.com or EVAlegal.com. Register .com + .eu. Cost: €20–50. Urgency: CRITICAL.

Naming finalization

Close "EUROPE VISA ADVISORY" vs. "EUROPEAN" inconsistency. Eliminate refuso "ENTRY".

Palette confirmation

Confirm Orange #F47920 + Dark Navy #0D1B2A. One-page brand guide for web dev.

PHASE 1 — JULY–AUGUST 2026 · COST: €5,500–6,500

MVP Digital — Site + First SEO Articles

WordPress multilingua (EN+PT), 8–10 core pages + landing B2B. Priority SEO articles on NHR/IFICI and Spain GV closed. Blog live with Vinayak case study as anchor social proof.

Do not wait for a perfect 107-page site — launch a credible 10-page site with 3 articles.

● NHR/IFICI article — first-mover window

● Spain GV Closed redirect — 14,870 searches/month orphaned

● Vinayak case study — live at launch

○ PHASE 2 — SEPTEMBER 2026 · COST: €600

Brazilian Quick Win — Email Campaign (19K contacts)

3-email sequence in PT-BR via Brevo. Pilot send to 2–3K most engaged contacts before full send. Frame: "Here's what changed in 2026 for your EU path" — not "here is our new service."

Email 1: "What changed in Portugal in 2026" — educational, re-establishes authority

Email 2: "3 mistakes Brazilians are making with EU residency" — problem-aware, creates urgency

Email 3: "EVA Comparative Assessment — book your slot" — direct CTA, limited capacity framing

GO/NO-GO METRICS

Email 1 open rate > 20% → proceed. <10% → pause and investigate deliverability. ≥5 total inquiries across 3 emails → proceed to Email 3. 2–3 closed mandates within 60 days → validated.

○ PHASE 3 — OCTOBER 2026–APRIL 2027 · COST: €1,700–5,550

B2B LinkedIn Outreach — Main Acquisition Engine

ICP: relocation agency founders, HR directors at multinationals with EU presence, UK/US immigration lawyers, Brazilian law firms with EU client flow. 5–10 new connection requests/week (sustainable for mono-resource). Value-first outreach using NHR/IFICI article as credibility asset. Target: 3–5 qualified conversations → 1–2 active referral agreements by April 2027.

○ PHASE 4 — AUGUST 2026 ONWARDS · CONTINUOUS

SEO Authority — Long-term Compounding Engine

1 article every 2 weeks. Priority sequence first 90 days: (1) NHR/IFICI reform, (2) Spain GV closed alternatives, (3) Beckham Law Spain 2026, (4) Portugal vs. Spain 2026 comparison, (5) EU Blue Card Germany guide. Measure: first 3 articles indexed within 30 days → any target keyword Top 20 by Month 3 → organic inquiry by Month 6.

Brand Palette Recommendation

Resolving the conflict between the Boschetti institutional palette and the EVA logo brief

The Conflict

Version	Palette	Origin
Boschetti institutional	Navy + Steel Teal + Amber CTA	Design System SLB
EVA autonomous	Orange + Dark Navy + Grey	Client brief logo + Enthous SEO Report

The Enthous SEO report — the most operationally advanced document in the project — already uses the footer: BOSCHETTI in Orange #F47920 + EVA in white on navy #1A2D40. This was not accidental. Enthous made a deliberate visual choice.

The Recommendation

USE: ORANGE + DARK NAVY (EVA AUTONOMOUS)

Orange differentiates EVA from IVI (Italy Visa Investments), which uses the teal/navy Boschetti institutional palette. Using the same teal would make EVA and IVI visually indistinguishable. The client proposed orange in the logo brief — align with their vision.

EVA Color Palette

Deep Navy
#0D1B2A

Navy Mid
#1A2D40

Navy Heading
#1C2844

EVA Orange ★
#F47920

Orange Light
#F9A55A

Off-White
#F5F2EE

Grey

#6B7280

TYPOGRAPHY — KEEP IDENTICAL TO BOSCHETTI DS

Playfair Display (H1–H3) + **PT Serif** (body) + **Montserrat** (UI/CTA). Typography is the fil rouge of the brand family. The color differentiates. The type connects. This preserves brand coherence without visual confusion between EVA and IVI.

RESULT

You read "Boschetti" in the typographic architecture. You read "EVA ≠ IVI" in the color. The orange signals international, dynamic, European — appropriate for a service aimed at digital nomads, HNWI anglophones, and Brazilians. Teal would read as Italian legal traditionalism.

Next Steps — 90-Day Action Plan

5 key actions calibrated for mono-resource studio · ordered by urgency and dependency

01

Register the Domain

Choose naming (EVAlegal.com / BoschettiEVA.com / europevisa.eu). Register .com + .eu. Cost: €20–50. Every other action depends on this.

⚡ THIS WEEK — NON-NEGOTIABLE

02

Publish the NHR/IFICI Article

1,500–2,000 word article on the NHR → IFICI reform (May 2026). Zero competitors have updated. First-mover SEO position closing fast. Publish even on a minimal site.

⚡ WEEK 3–4 — TIME-SENSITIVE

03

Segment the Brazilian Database

Before any send: segment 19K contacts by recency, topic, engagement. Identify 2–3K pilot group. Protect the most valuable GTM asset in the plan — one wrong send can burn the list.

⚠ WEEK 2–3 — BEFORE CAMPAIGN

04

Build MVP WordPress Site

EN + PT, 10 core pages, 3 articles queued. Not 107 pages — a credible 10-page site is better than a perfect site in October. Budget: €5,000–6,500.

⚠ JULY–AUGUST 2026

05

Document the Vinayak Case Study

India → Germany, May 28 2026. The first real EVA lead. Anonymize or get consent. 300–500 words. Live on website Day 1.

The best proof of concept you already have.

✓ **WEEK 1-2 — ZERO COST**

OPEN ITEMS REQUIRING CLIENT DECISION

1. **Naming + domain** — BoschettiEVA.com vs. EVAlegal.com vs. alternative. Blocks everything.
2. **Pricing confirmation** (T1–T5) — all figures in this document are assumptions. Must be confirmed before any external use.
3. **Partner local costs** (Ioana, PT desk) — critical for margin calculation. Highest-risk unconfirmed variable.
4. **Palette confirmation** — Orange/Navy EVA autonomous vs. Boschetti teal. Recommend orange (see Section 09).
5. **Boschetti's available capacity** — max mandates/month must be defined before GTM launch to avoid delivery risk.

STRATEGIC COHERENCE CHECK — SUMMARY

✓ **Coherent:** Positioning "unico studio comparativo" supported by competitor data (21 domains, no cross-border with E-E-A-T). Boschetti's structural advantages (19K contacts, track record, EEAT) are real and non-replicable. Regulatory volatility (GV ES + NHR PT + Malta) is empirical proof, not claim. Brazilian Quick Win is the logical first lever. B2B as 12-month engine is correctly sequenced.

⚠ **Watch:** Expansion risk (Boschetti wants 6–8 countries fast; Sara recommends focus on PT first). Recommendation: build multi-desk architecture in the site from Day 1 (low-cost), but activate GTM paid only on PT for the first 6 months (protect mono-resource bandwidth).

BOSCHETTI EVA
